Second He added to the interest of the story by telling that he had in his cellar, in test bottles, bones that had been accumulated from his student days. These were thrown out when he started South with the army.

The importance of this new feature lay in the fact that the starting point of the charge against the doctor was the statement of a negro that he had seen a body in the cellar.

There were other details in the story, such as his trip to borrow a sabre on June 15 that led him in the direction of the spot where the body was found, but he said he found the roads torn up and went by a circuitous route for the martial trimmings.

Germany has added a new verse to the Hymn of Hate, putting this country on a par with Great Britain as the object of Prussian venom. It is Hate, card indexed and catalogued, for which the Kaiser will demand his pound of flesh and blood. The author was Vice-Consulat Plauen, Saxony, until we got into the war, and he tells of his personal experience with the strangest campaign ever known -of exciting the common people of one nation against the common people of another.
